

Name: _____

Date: _____

On this page, describe some of the things you have sensed to be most important to you after the first five lessons of Perspectives. You can organize your response in any number of ways. You may describe content items that have been particularly surprising or challenging. You may want to describe how you sense God has been speaking to you. Or you may choose to present something like a personal journal entry describing changes you are experiencing because of this course. There are no right or wrong answers.
