Respond to what you have learned in the Strategic section. Select an idea that was significant to you and describe its impact on your thinking, lifestyle, obedience or mission involvement. Here's another option: Frame your answer in the form of a journal, chronicling how the class material impacted you as you processed Lessons 12 through 14. Your response won't be evaluated on the basis of your opinions or values but on how well you demonstrate thoughtfulness and personal sensitivity to the material. Limit your response to the front of this page.
